

“HURRICANE HUGO: LOOKING BACK 30 YEARS”

This September marks the 30th anniversary of *Hurricane Hugo*, a category four storm that hit South Carolina in 1989. **WBTW Chief Meteorologist Frank Johnson** will explore the storm’s origins and follow its path toward South Carolina. He will look at Hugo’s impacts on the Waccamaw Neck, and compare Hugo to other big hurricanes that have impacted this area.

Thursday, September 26 at 10:00 am
